SINGA SELVAMANI

ENTRY LEVEL DATA ANALYST

+91 9384620397   singaselvamanis@gmail.com   https://github.com/Selvamani21

Kolathur, chennai - 600099, Tamil Nada, India

SUMMARY

Motivated B.Tech candidate in Computer Science and Engineering seeking entry level opportunities in data analyst. Dedicated to continuous skill improvement and eager to apply evolving expertise to contribute effectively in a dynamic technical environment.

EDUCATION

Bachelor in Technology Computer Science

SRM Institution of Science and Technology, Chennai   *June 2020 - April 2024*

GPA:8.58

ACHIVEMENT AND CERTIFICATION

- **Accenture North America Data Analytics and Visualization Job Simulation on Forage**   *June 2024*
- **PwC Switzerland Power BI Job Simulation on Forage**   *June 2024*
- **Introduction to Data Science on Cisco**   *July 2024*

SKILLS

Skill	Level	Skill	Level	Skill	Level
Python	70%	Power Bi	50%	Data Understanding	50%
SQL	80%	Data Analysing	50%	Chat GPT	70%
Excel	60%	Data Modelling	50%	Data Cleaning	50%

PUBLICATION

Scalable approach for detecting air quality inference using ensemble regressors

Published a paper on IJRPR (International Journal of Research Publication and Reviews)   *May 2024*

PROJECTS

- **Colorization of grayscale image to colour image using CNN and GAN**   *June 2023*
- **Scalable Approach for Detecting Air Quality Inference Using Ensemble Regressors**   *November 2023 - March 2024*
- **Cancer prediction using logistic regressor**   *June 2024*
- **Big Sales Prediction using Random Forest Regressor**   *Juny 2024*

INTERNSHIPS

YBI Foundation - Data Analytics Intern

Completed my data analytics internship at YBI Foundation, where I applied my skills in data analysis, data modelling, and data visualization to support various projects and provide actionable insights.

June 2024 - July 2024

Saregama - OTT Video Editor

Assisted in editing and producing video content for Saregama's OTT platform, collaborated with the team to meet quality standards and deadlines, and gained hands-on experience with video editing software and production processes.

December 2023 - March 2024
